Presentation Outline

Executive Summary // TL;DR

The Infinite Dial Australia 2024 study by Edison Research confirms that Australian audio consumption remain strong, with radio significantly outperforming the US market. The study reveals continuous growth in online and digital audio platforms, indicating a dynamic and evolving audio landscape.

- Radio reaches 81% of the population; 27% higher than the US.
- Five times more Australians listen to radio than ad-supported Spotify.
- Online streaming among 25-54-year-olds has doubled in three years.
- Podcast listenership increased by 20% in two years, leading globally.
- Radio is the top in-car content choice, with a 76% higher listening rate than other sources.
- Streaming radio listening in cars rose by 75% in two years.
- Smart speaker ownership doubled in four years, now matching the US.

Study Overview

- Infinite Dial Australia explores the overall penetration of audio in Australia, including AM/FM, DAB+, or digital online sources. In addition, this report measures Australians' usage of the latest online platforms and technologies
- The Infinite Dial Australia report mirrors the Infinite Dial U.S. reports, which have been undertaken annually since 1998 by Edison Research, and cover a wide range of online digital media topics
- This is the eighth annual Infinite Dial Australia report since its debut in 2017
- This study is designed to allow for direct comparisons among Australia, New Zealand, and the U.S.

Study Methodology

- In the first quarter of 2024, Edison Research conducted a national survey of 1,719 respondents in Australia aged 12 and older
 - 1,421 interviews conducted online
 - 298 interviews conducted via telephone
- Data weighted to national 12+ population figures
