

Music Discovery Report

Study Overview

- The Infinite Dial is the longest-running survey of digital media consumer behavior in America
- The annual reports in this series have covered a wide range of digital media and topics since 1998
- The Infinite Dial tracks mobile behaviors, internet audio, podcasting, social media, smart speakers and more

Study Methodology

- In January 2024, Edison Research conducted a national survey of 1,086 people aged 12 and older, using random digit dialing techniques (cell phone and landline)
- Survey offered in both English and Spanish
- Data weighted to national 12+ U.S. population figures

Key Questions

- How important is keeping up to date and learning about music to the U.S. population 12+?
- What audience segments are the most likely to be dedicated music followers?
- What platforms do listeners use to follow music?
- What platforms do different audiences use to keep up to date with music?
- How has discovering music changed over time?

Observations

- Just under one-half of the U.S. population 12+ say it is important to keep up to date with music
- 12-34 year olds and African Americans are the most likely to be dedicated music followers
- Spotify has grown to be one of the most influential music discovery platforms since 2016
- Social media platforms play an integral role in music discovery for people 12-34, especially compared to older age segments
- Word of mouth, YouTube, and AM/FM radio, continue to be key sources of music discovery among people in the U.S. 12+
